

POINT UNIVERSITY
SKYHAWKS
SPORTS MEDICINE

Job Description

Point University is a Christian university and the Intern Athletic Trainer is required to uphold the rules and regulations of the Covenant at Point University, the Appalachian Athletic Conference (AAC), and the NAIA. Point University currently sponsors 21 sports teams and the Intern Athletic Trainer will be joining a three-person full time sports medicine team caring for all of our athletic programs sponsored by the university. Intended sport assignment is Football, Men's or Women's Basketball and/or Men's and Women's swimming however, this is subject to change.

Point University is accepting applications for an Intern Athletic Trainer to be filled immediately with a start date of August 1, 2019. The Intern Athletic Trainer will assist the Head Athletic Trainer and two Assistants in the day to day operations of the Sports Medicine Department. These responsibilities include:

- Assists with the medical and injury related needs of student-athletes
- Evaluates athletic related injuries and determines appropriate subsequent care or referral
- Directs medical supervision of team practices and events
- Implements medical emergency action plan in event of medical emergency
- Documents injuries, treatments and rehabilitation
- Maintains medical records
- Develops appropriate flexibility and strength programs for injury prevention
- Develops progressive rehabilitation programs post-injury safe return to activity
- Oversees and administers daily treatment of student athletes
- Travels with sports team for medical coverage and student care on the road as assigned
- Supervises and instructs Graduate Assistants
- Counsels student athletes on injury, health, safety and nutrition topics
- Assists with pre and post-practice and event preparation of student athletes and sport venue
- Other duties and responsibilities as assigned by full time staff
