

The Valley Recreation Department has a soccer program, and I am in need of some people to help run the league for our 4–6-year-olds. They wouldn't need to have much soccer experience, and I can teach them what they need to know. I just really need 2-3 people to help organize practices. It would be Tuesday and Thursday nights from 5:30 p.m. until about 8 p.m. They would be on contract and get paid \$25 per night. I was thinking there might be a couple of college students that need a little extra cash. I can meet with them any time and will be there for the first couple of nights to help them.
