

Point University

ABOUT US

When you finally see the purpose that gives your life and work meaning — when you finally understand the point you want to make to the world — there's tremendous power in that kind of clarity. At Point University, we not only help students discover their point; we equip them to *make* it.

- ▶ **A rich history.** Founded in 1937, Point University is an accredited, nonprofit institution educating and equipping a diverse Christian community of cultural leaders motivated to live out their faith in the marketplace. Our main campus is located in historic West Point, Georgia.
- ▶ **Solid academics.** Point is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, bachelor's and master's degrees — which means your credits are transferable! It also means you can trust that at Point, you'll experience a challenging education that will prepare you for what's next.
- ▶ **Accessible, online education.** Point offers more than 25 in-demand, fully online programs. Our online courses are eight weeks long, and they are asynchronous — meaning there are no set class times. You can learn on your own schedule from the convenience of your own home — or from anywhere in the world!
- ▶ **Support for your goals.** Point University seeks the comprehensive growth of the student as a whole person. All of our academic support services are free and fully available to online students. Our intention is to empower and coach the student to achieve their goals of success. We can work one-on-one to develop a customized success plan or in small groups to provide an array of related trainings, like study skills and time management. We want to help you year-round to develop positive academic habits, explore your vision, realize your goals, and navigate the overall student experience.
