

**Assistant Professor of Mathematics
College of Arts & Sciences – West Point, GA**

Point University is a private liberal arts institution that educates our students within a Christian worldview, so they are equipped to take their faith into the marketplace and all of life while achieving their professional goals. We are training the next generation of Christian leaders to take the cross to more job sites, churches, industries, and nations than ever before.

Point is a minority- and Hispanic-serving institution, and we enroll a significant population of international students. Many of our students are athletes or work and must learn to balance the rigors of multiple obligations. As such, applicants must be enthusiastic about engaging a diverse student body whose members come from a multitude of backgrounds and experiences, all within the context of the institutional mission.

Point University is seeking applicants for the position of Assistant Professor of Mathematics in the College of Arts & Sciences. Mathematics is foundational to our general education and is an important component of the curricula of many of our major degree programs. Our new colleague will primarily instruct students at our West Point, GA campus who choose to enroll in a traditional, residential experience and will also be expected to serve our online student population.

Expectations

Candidates will have a degree in mathematics education, mathematics, or a closely related field. An earned doctorate is preferred, but not required. Strong applicants who will complete a terminal degree within two years will be considered.

Primary teaching responsibilities may include Elementary Algebra, Intermediate Algebra, College Algebra, Pre-Calculus, Calculus I, and Quantitative Reasoning. Knowledge in the field of statistics and data analysis is a plus and will be well-received because of opportunities for interdisciplinary studies.

Applicants must be committed to education, professional growth, service, and scholarship in a distinctively Christian setting, including agreement with the University's mission and goals, values, and doctrinal statement. As an educator, a commitment to student-centered pedagogy is desired for residential and virtual students, and growth in this skillset is fostered and encouraged.

Scenic West Point, Georgia

Point University is in historic West Point, Georgia. With the university integrated into the city, West Point is a college town that maintains its small-town uniqueness. Just over an hour from the city of Atlanta, West Point has immediate interstate access to I-85 and grants comfortable travel to Hartsfield-Jackson International Airport, professional sports, arts, and all the amenities that a major metropolitan area offers. West Point is also close to other city centers, such as Auburn/Opelika, AL and Columbus, GA, which is the second largest city in Georgia.

Point University is in a region rich with opportunities for the outdoor enthusiast. The campus intersects with the Chattahoochee River and is close to West Point Lake. Point University is within an hour drive of multiple state parks in Georgia and Alabama. The University is also close to destination resorts like Callaway Gardens and a Great Wolf Lodge. Multiple beaches and the Appalachians are easy getaways.
